

For Immediate Release

Automatic Door Solutions, headquartered in Overland Park, Kansas is pleased to announce its entry into the Kansas and western Missouri market providing full-service automatic door maintenance and service to all commercial clients. As a full-service provider of automatic door services not beholden to any one door manufacturer, **Automatic Door Solutions** will work for the client (not for a specific door manufacturer) to find the best possible solution. **Automatic Door Solutions** offers new/replacement automatic door installation, 24/7 maintenance, inspection and repair services through its service-oriented, trained and AAADM certified technicians.

Look for our new, fully equipped and inventoried vans on the road headed to a service location near you!. Don't be surprised if the technician stops in simply to say hello, introduces him or herself, and drops by some information and goodies. Clients can expect irrational service at competitive prices. **Automatic Door Solutions** makes access easy. You can learn more at www.automaticdoorsolutions.com or call (913) 563-4593.

Automatic Door Solutions is a sister-company of **Fire Door Solutions**, also headquartered in Overland Park, Kansas. **Fire Door Solutions** is the industry-leader in fire door inspections, repairs and in-field re-labeling of fire doors. They also offer a full-array of life safety solutions available to all clients. **Automatic Door Solutions** and **Fire Door Solutions** are your one-stop for all things life safety. You can learn more about **Fire Door Solutions** at www.firedoorsolutions.com.
