

FREE

We are offering Free Mock Surveys for a limited time to select Healthcare Providers. This is a special campaign FDS is offering to support your next inspection/survey.

What's Included: Mock Survey

- This Comprehensive Physical Assessment will review the compliance of the following Standards, Management Plans, and Programs for the Environment of Care (EC):
 - o Safety
 - o Security
 - o HazMat
 - o Fire Safety
 - o Medical Equipment
 - o Utilities Management
- Review the compliance of the additional Physical Environment Chapters:
 - o Life Safety
 - o Emergency Management
- Conduct building tour (modeled after The Joint Commission) to review the life safety protective features as identified in NFPA 101 and NFPA 99.
- Provide a “Required Document” matrix that reflects the dates of all documents observed during the review.
- FMS will work with all HIPAA requirements and interact professionally with engineering, nursing, and security to provide a smooth and efficient process that does not interfere with hospital operations.

We operate under the guidance of former surveyors and provide you with a reporting format that sets you up for success.
